## COMPETITION LAB FOR JUDGES

*Stepping up with the economics of competition law: from core principles to application in practice*

**A Seminar on European Competition Law for National Judges**

 **Budapest, Hungary**

 **10-11 November 2022**

### Seminar objectives

The Hungarian Competition Authority (GVH) will hold a competition law training for judges in the framework of the OECD-GVH Regional Centre for Competition in Budapest (RCC) on 10-11 November 2022 in Budapest as part of the Training of the National Judges Programme of the European Commission. This event will receive funding from the European Union.

The seminar entitled “*Stepping up with the economics of competition law: from core principles to advanced competition law enforcement*” aims at exploring economic concepts, tests and evidence used in antitrust cases. National judges will get acquainted with economic concepts, as well as the economic reasoning underlying the EU competition law framework and will gain a comprehensive understanding of the different economic models and tests used to assess anti-competitive effects and notions, such as market power and relevant market. Special attention will be devoted to sources of information and guidance, to which judges could turn to when they have to face complex or novel issues.

The topics will be addressed and discussed by competition law experts from OECD member countries. Practical exercises on hypothetical cases involving all participants will provide a great opportunity to apply the learnings of the seminar in practice. Furthermore, participants will be engaged in Q&A sessions with the experts and will be encouraged to share their experience with one another to promote further cooperation and networking.
